NetEnt presents a real scary vision of the future in Arcane Reel Chaos

Superhero characters take on the evil villain Deep Pockets and attempt to stop his reign of terror.

Set in a dystopian futuristic world, and steeped in the occult, NetEnt's latest release is a 5-reel, 3-row, 20-line video slot where four fearless friends set out to protect their city from the wicked Deep Pockets – and destroy the scatter symbol that turned him into an evil maniac.

The heroes – Flare, Chronos, Zero.x and Psyop – bring their unique super powers to the reels to grant players stacked wilds, multipliers, multiplying re-spins and overlay wilds in the battle to beat the villain.

After the four mini-features comes the big showdown with Deep Pockets in Free Spins.

Every time the bald baddie is beaten by one of the fearless foursome, a bet line multiplier increases, giving up to four times the bet line win. If all heroes defeat Deep Pockets a Sweet Victory bonus is rewarded.

"Combining a proven, player-favourite math model with rich, comic-like graphics and a compelling superhero storyline, Arcane Reel Chaos has the ingredients needed to be a success. I have no doubts that it will be a hugely popular new addition to our portfolio," said **Bryan Upton, NetEnt director of games.**
